\$175/mo, \$1,750/yr

Targeted Marketing Ads

Targeted Marketing Ads offer excellent results for CNC Report advertisers. These ads only run on pages with content closely related to the advertisement.

Historically, a magazine ad might have thousands of eyes on it but only 0.5% of those might actually have the need AND authority to purchase the product being advertised.

The CNC Report has always invested heavily in content management software, premium design and search engine optimization. The results are evident. Visitors click on our articles because they are consistently ranked high in Google. When visitors arrive at an article page they are presented with targeted ads that relate to their original search. This strategy is a proven formula for success known as "Targeted Marketing".

Ads are purchased in 6 month increments and range in price from \$300 to \$1,500 depending on traffic and product type. Ad sizes and styles are very flexible.
